

LiveRoom  
Technology Development Center,  
24A, Rupasiri Mawatha,  
Mirihana,  
Nugegoda, Sri Lanka.

Hello,

After looking at your website, which I discovered at [liveroom.xyz](http://liveroom.xyz), I got the impression that LiveRoom is an amazing company that especially focusing on modern AI and XR technologies. My passion for XR development started a long time ago. I have worked in many numbers of AR, MR projects and delivered many innovative mobile XR solutions which are live and available on App store and play store.

Working as a software engineer at my current company made me learn most of software engineering practical concepts, client interaction methods and scrum methodologies. I have also experience in learning and applying new technologies as appropriate. Company RnD Unit was initiated by myself and currently I am working in RnD Unit.

I believe LiveRoom will be a great place to enhance my skills and learn new skills so I will be an asset to your organization. With my determination, passion for XR development and ability to adapt to upcoming technologies, I would be a good candidate as an XR developer at LiveRoom.

I have attached a copy of my resume that details my projects and experience in software development. I can be reached anytime via my cell phone, +94714425595 or via email at [bsc2fast@gmail.com](mailto:bsc2fast@gmail.com)

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

(Sankha Cooray)
